Opis produktu

RS150-8 6" Reference Woofer 8 Ohm

Quick Overview

The Dayton Audio Reference Series RS150-8 6" woofers deliver exceptional clarity, detail, and dynamics—and of course, incredibly low distortion.

Product HighlightsOne of the lowest distortion, highest resolution driver series availableLow-distortion high-excursion motor system with two short-circuit pathsCompliant suspension and rigid black anodized aluminum cone for strong bass performanceHeavy-duty 6-hole cast frame, low-loss rubber surround, and solid aluminum phase plug

Product DescriptionThe Dayton Audio Reference Series was conceived with one goal in mind—low distortion. Each speaker was carefully designed and optimized to offer the highest performance with the lowest distortion levels. At the same time, by focusing on features that contribute to sound quality and eliminating unnecessary frills, the drivers offer value unparalleled in the industry. Dayton Audio Reference Series RS150-8 6" woofers deliver exceptional clarity, detail, and dynamics—and of course, incredibly low distortion.
