Mundorf MCap Supreme EVO Oil 47,00µF - 600VDC

Cena brutto	699,99 PLN
Cena netto	569,10 PLN
Numer katalogowy	SEO-47T2.600

Opis produktu

The MCap® SUPREME EVO is a complete new development for 2015. It combines the excellent impulse playback of the EVOLUTION winding technology with the unsurpassed holographic three-dimensionality of the SUPREME winding technology in a capacitor which is comparably cost-effective due to its aluminium metallisation. After running through our latest and greatest winding process, the capacitors are potted by hand into aluminium tubes to minimize microphony. The asymmetrical leads make it possible to assemble it in a classic, horizontal style or vertical; the shorter lead also indicates the capacitor's outer foil. Thanks to its Oil impregnation, the MCap® SUPREME EVO Oil offers further increased presence and dynamics. Parameters: capacitance 47 µF, max voltage 600 VDC, dimensions 76x67 mm, wires 1,4x50/120 mm
